i just wanted to reassure readers
that following representations
seeking confirmation
that before your very eyes
behind the wall of ice
that the box is not under threat
however they are set to remove
other boxes
in fact i have the list in front of me
i went to a briefing on their plans
and challenged them to tell me
exactly what the cost would be
they spoke in broad terms
we're looking for: talented puppeteers
worms, disgruntled executives, sacked flies
genres: doomcore, folktronica, ukf
